

To whom it may concern:

I am outraged to think that the NAB's petition 04-160 is being considered. I listen to my XM not only in my car but also in my home. It's keeps me entertained for everything from CNN to Dance music. In the mornings on my commute into St. Louis, I religiously rely on Station 218, the Instant Traffic and Weather station to provide me the information I need in less than 5 minutes continuously. It's extremely frustrating listening to the other public radio stations for 15 minutes at a time just to *try* to catch a traffic update. Besides, XM's information is always up-to-date. I've even been known to phone in issues on the road. You can't get this sort of service anywhere else. That is why I don't mind paying a subscription fee to have access to such great information at the touch of a button.

The National Association of Broadcasters should have no right to interfere with a service I pay for! I strongly urge you to the NAB's petition 04-160 so that I may continue to enjoy the kind of programming that I demand and deserve.

Thank you.
